PROFESSIONAL SUMMARY

Software Developer with experience in **MongoDB, Express.js, React.js, and Node.js**, backed by strong programming skills in **JavaScript & API design**. Implemented Context API for efficient state management, reducing application size by 25%. Using Code Splitting and Redux, driving 75% improvement in development optimization and scalable production. Strong communicator with a track record of meeting project goals, leading the Team and exceeding client expectations. Leveraging the power of the MERN stack to streamline processes, enhance efficiency, and improve customer experiences.

SKILLS AND ACCOMPLISHMENTS

- **MERN Stack Development**: MongoDB | Express.js | React.js | Node.js

- **Programming Languages:** JavaScript

- **Frontend Development:** React JS | HTML5 | CSS3 | Tailwind | SPA | Redux | ES6 | RTK

- **Backend Development:** Node.js | Express.js | API design

- **Databases:** MongoDB.

- **Version Control & Collaboration:** Git | GitHub

- **Web Design & Development:** Web Designing | REST API | JSON | Responsive Web Design.

- **Other Skills:** Design Patterns | Axios | JIRA | Animations

- **Client Handling:** Communication with Client, Troubleshooting and teamwork.

MERN STACK DEVELOPER | TIETOEVRY, PUNE   (04/2023) – (04/2024)

Tech: React | Axios | Node | Tailwind | Pie Chart | Flow Bite | Hooks
.
Multivendor Ecom :

- Designed and developed secure and user-friendly checkout page for processing transactions.

- Handled Multiple API call and Webhook calls for logging the transaction reports.

- Implemented reusable front-end components using React.js and Backend API using Node js. Ensuring a responsive ui across various dimensions.

- Ensuring high performance and scalability by implementing Code Splitting, lazy loading, also reduce the application size by implementing Redux and RTK.

- Developed APIs for handling customer requests.

.

- Learned to collaborate with QA team to get the client requirements handle the client issues, troubleshoot client problems.

- Designed various SPA pages and APIs for seamless communication.

- Implemented Context API for advanced state management for solving the data transferring problems.

- Collaborated closely with cross-functional teams, including designers and QA engineers, for implementing design with Industry best practices.

- Implemented a user-friendly interface to browse and search for products. Products will be categorized and displayed with relevant details, including images, descriptions, and pricing.

EDUCATION

BE (Bachelor of Engineering) in Computer Science   **Graduation Year - 2022**
Chhattisgarh Engineering College, Chhattisgarh
CSVTU University
